Fresh Flower Care and Delivery Instructions

It is essential that your fresh flowers and bouquets are delivered to us as soon as possible after your special occasion. The fresher the flowers, the better they will freeze dry. For best results, we should receive your flowers within 1 to 3 days after the event.

Preserving your flowers requires good planning. Please call 623-977-2010 to set up a time to deliver your flowers to us or for us to pick up your arrangement.

Fresh Flower Care

1. DO NOT place your fresh flowers in a freezer and DO NOT let your flowers freeze.
2. If flowers or bouquets are on long stems, cut ½ inch off the bottom of the stems and place in a vase of water. If the stems are wrapped with ribbon make sure the water in the vase does not touch the ribbon as much as possible.
3. If the flower stems are inserted into a green floral foam, moisten the foam with water.
4. Store the flowers in a refrigerator until the fresh flowers are delivered or shipped. DO NOT store with fruits or vegetable.
